

1.1)  $R(\theta)$  plotted over 0 to  $2\pi$

3.1) Show that  $\varphi_{\text{circle}}(\theta) \in S^1$  for all  $\theta \in \mathbb{R}$ , i.e., that (3) maps an angle  $\theta$  to a point on the circle  $S^1$ .

3.2) Run the function `Torus.phi_test ( )` and include the result in your report.

3.4) Include the figure produced by this function in your report

3.6 & 3.7) Include the output of the function provided in the previous question.

4.2) Include a figure with the output of the function `twolink_plot_collision_test ( )`.
